

SCARLET STORAGE

SAFIYA BANKS, JAY LI,
KATHERINE NGUYEN, & CHLOE REICHERT

BUSINESS CONCEPT

An on-campus place for students to store their belongings between residence halls. Scarlet Storage would be a student focused moving and storage service designed specifically for university students. This business would help students move between dorms, off campus housing and provide storage near by campus in between breaks. This would prevent less stress during move ins and move outs during breaks. The service is reliable, affordable, and staffed by trusted and qualified university students.

CUSTOMER VALUE PROPOSITION

Our business will provide university students with a convenient and secure place to store their belongings over university breaks. It will be better than competitive business as the storage unit will be close to the university, eliminating the transportation issues college students have if they live out of state. It will be staffed by university students, offering college students job experience and making money over break.

NATIONAL EXPANSION

DECISION: YES

APPROACH

Franchise

Authorize a business partner to use the trademarks/patents and brands and provide business guidance in how to operate the business successfully in another country or countries.

RATIONALE

Franchising allows our company for rapid expansion with lower capital requirements, leveraging local entrepreneurs to operate stores under our brand standards. This approach ensures quality control, spreads operational risk, and accelerates revenue growth while maintaining brand consistency.

GLOBAL EXPANSION

UNITED KINGDOM

OPPORTUNITIES

- Abundance of Developed University Campuses
- Stable Economy with high purchasing power
- Has laws that protect businesses
- International businesses are treated the same as domestic firms with a few restrictions

CHALLENGES

- Slowed economic growth in 2026
- Hiring has slowed, implying a higher unemployment rate
- Higher operational costs (rent, wages, utilities) compared to domestic locations

RATIONALE

- Choosing the United Kingdom to expand our company in provides an opportunity for us to raise profits in a economically stable location.

GLOBAL RATIONALE

It allows the company to grow beyond the domestic market and access new customer bases. The United Kingdom supports this strategy by entering an international market with strong demand and opportunities for brand growth. This approach helps the company diversify revenue, increase market presence, and build a competitive advantage globally.

EXPANSION STRATEGY

ENTRY STRATEGY

FRANCHISE RATIONALE

SELL?

NO

We will not sell Scarlet Storage!

- Long-term risks and ethical concerns outweigh the short-term financial gains
- Widespread layoffs, damage to employee morale, and harm the communities that have supported Scarlet Storage's growth, especially for the United States where most operations are rooted
- Buyers lack experience and are motivated by personal enjoyment rather than sustainable business success
- As leaders, your responsibility extends beyond just shareholders, but to all stakeholders, including employees, partners, and the broader economy. By not selling, you preserve stability, protect jobs, and maintain the company's legacy while continuing to grow the business responsibly.

HOW ARE WE SUCCESSFUL?

- Transparent and efficient operations
- Strong commitment to customer satisfaction
- Focus on corporate social responsibility
- Investment in employee growth and development
- Affordable, high-quality service
- Engaged employees leading to better performance
